

a² 9. (once amended) A method according to Claim 7 further comprising the step of attaching a mounting plate to the main body such that the mounting plate is substantially perpendicular to the limit switches.

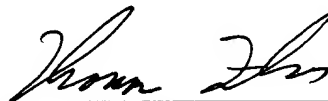

a³ 35. (once amended) A switch according to Claim 34 wherein said cover comprises a unitary cover sized to cover all phase plates.

Remarks

Submitted herewith is a Submission of Marked Up Claims. Specifically, the claims have been amended to correct typographical errors and better comport with the originally filed specification. Accordingly, no new matter has been added.

Favorable action is respectfully solicited. Applicants believe that no fee is due for this preliminary amendment, however if any fee is due, please charge the fee due to Deposit Account No. 01-2384.

Respectfully Submitted,

SUBMISSION OF MARKED UP CLAIMS

Commissioner for Patents
Washington, D.C. 20231

Submitted herewith are marked up Claims in accordance with 37 C.F.R. 1.121(c)(1)(ii) with additions underlined and deletions [bracketed].

IN THE CLAIMS

2. (once amended) A method according to Claim 1 wherein said step of attaching a tabbed mounting plate further comprises the step of attaching a tabbed mounting plate including a plurality of attachment tabs [and a line of symmetry with respect to the attachment tabs] to the automatic transfer switch, the plurality of attachment tabs arranged with at least one line of symmetry [plate].

3. (once amended) A method according to Claim 1 wherein said step of attaching a tabbed mounting plate further comprises the step of attaching a tabbed mounting plate including a plurality of attachment tabs [and at least two orthogonal lines of symmetry with respect to the
